

-- In Massachusetts, get on 495 North or 95 North (495 North pours you onto 95 North). You could also get onto 93 North to 495 North.

-- Continue north through New Hampshire and into Maine. You will have to pay a toll in York (\$1.50) in order to continue on 95 north, as it becomes the Maine Turnpike.

-- The next exit after paying the toll is where you will get off -- Wells. It is exit number 19. It will say Wells, Sanford, Route 109, 9, etc.

-- at the bottom of the exit, you will go LEFT onto Route 109.

-- Take this all the way to a traffic light - about one and one half miles. This will be Route 1.

-- Take a LEFT -- heading north -- onto Route 1

-- Take the FIRST RIGHT onto Harbor Road. This is no more than 50 yards after you get onto Route 1, so you'll need to get over to the right immediately after you take that left onto Route 1. There is a big sign that says to the Harbor - fishing, boating, etc.

-- Follow Harbor Road all the way to the end. It will dead end at the Wells Town Wharf. We will be there -- aboard the boat or hanging out with our dog Sam at the car with The Gift sign and brochures. If you have any trouble/questions, call us on the cell phone:

1-207-251-0795

There is plenty of free parking at the wharf or nearby. This is an old-fashioned harbor with only one restaurant and one boatyard -- not commercial or crowded at all.
